FOREWORD

It is on our Doctor's advice that we are holding this Dispersal Sale in conjunction with Mr. J. W. Atcheson and Son. It is with deep regret we offer our herd but at the same time we have the satisfaction of presenting established quality and breeding. As this decision was reached suddenly, the herd has not been built up in any preparation for a sale. The entire herd was wintered outside. We feel sure that whether you are building a herd or are an established breeder, you will find here individuals that with their type and pedigree will be an asset to your herd.

We established the herd in 1954 with a couple of original cows from home, and that year purchased five females at the Hamilton and Cammaert sale for a total of \$4,800. We also obtained top cows from the Dispersals of Harrison, Dafoe; Slater, Regina; and Wotherspoon, Melville. The majority of them sell.

We started showing in 1955, going to Moose Jaw and Weyburn Summer Fairs, and then in 1956 we showed at Saskatoon, Regina, Moose Jaw and Weyburn, winning Reserve Grand Champion bull at Saskatoon and Regina and Grand Champion female at Regina. The heifer was best Saskatchewan bred female wherever shown. She sells as Lot 16. Our Show bull that year was our Herd Sire—Lot 1. In 1957 we exhibited a first place heifer at the Saskatoon Futurity show. We had intended exhibiting a small herd this year but circumstances will not permit. However, these animals are ready to go and the new owners will have this privilege.

We would welcome your inspection of the herd at any time. Plan now to be in Regina on June 27th, we feel sure you won't be disappointed.

GEORGE and BARRY ANDREW.

For your information we are showing below the pedigree of our first Herd Sire.

FOREWORD

To intending purchasers permit me to say it is after considerable hesitation as well as regret and owing to failing health that I am offering my herd for sale. These are not a large number but are a very select group with lots of quality, type, and Shorthorn characteristics that have given me excellent returns and I feel assured will do the same, with proper care and attention, to any one who may purchase them.

They have been lately tested for Bang's and T.B. There has never been a case of Bang's, T.B. or Blackleg on this farm. These cattle are a healthy bunch, quiet, and easy to handle.
